

That Ain't Nothin'

Fred Hammond

Three boys risked their lives
In flames of fire they were sure to die
The king said bow they said we're not gonna do it
Although they went it, the Lord He brought it

He knows the path You take and even if it leads you to a rocky
place
It's okay
Whatever you can think to ask, He can do much more
And you just say while you wait

Is there anything, anything
Anything too hard for Him
If it's impossible, do you need a miracle
Anything too hard for Him

Say you got a mountain
Seems like it won't move
No time to climb it it
You don't know what to do, hey
What about when
He brought a big giant down
With a stone in the hands of a little child

That ain't nothin', that ain't nothin', that ain't nothin', tha
t ain't nothin'
That ain't nothin', that ain't nothin', that ain't nothin'
That ain't nothin' too hard
