

You Bless Me Over and Over

Fred Hammond

You keep on blessing me...

(Everybody yeah)

Lord you're the apple of my eye let me tell you why
You always come through that's why I put my trust in you
You woke me this morning new mercies I see
Your love and your favour still covering me

Jesus I'll never forget what you've done for me
How can I forget how you set me free, you set me free

Lord I'm so grateful
You've always supplied my every need
I'll always remember where my blessings come from
Where my blessings come from...

Show us your blessings raining down on me daily
I won't take it for granted the love you have for me
There's not a day that goes by that I'm not on your mind
A greater love in my life Lord I would never find

Jesus I'll never forget what you've done for me
How can I forget how you set me free, how you set me free

Lord I'm so grateful
You've always supplied my every need
I'll always remember where my blessings come from
Where my blessings come from...

Food on my table, clothes on my back and shoes on my feet
I'll always remember where my blessings come from
Where my blessings come from...

Jesus I'll never forget what you've done for me
How can I forget how you set me free, how you set me free

You bless me over and over
And you keep on doing great things for me
You bless me over and over, over and over, over and over
You bless me over and over
And you keep on doing great things for me
You bless me over and over, over and over, over and over

Jesus I'll never forget what you've done for me
How can I forget how you set me free, how you set me free

You bless... You bless...
How can I... How can I... (everybody sing with me)

You bless me over and over
And you keep on doing great things for me
You bless me over and over, over and over, over and over

Jesus I'll never forget what you've done for me, what you've done for me
How can I forget how you set me free, how you set me free

You keep on blessing me...

There's not a day in my life that I'm not on your mind
A greater love in my life Lord I would never find

You bless me... Over and over... You bless me... Over and over... Yeah!
