Bodies get laid out
Parties get sprayed out
When they get to trippin it's best to be up in the house
Not on no scared shit nigga that grown man shit
You out for the count if you get put down on this canvas
Switch up your demeanor when you step up in this arena
Shoot up benzes n beamers gangsters got heaters in the steamers
Remember we used to bump that Teila? and get super zooded
I ran with killers whatever they did a nigga was down to do it
He serve a geeker I serve a geeker even when it was snowing
He started rapping shortly after that than I started flowing
I was slammin that dodey he was whippin em with the hard
Treat him like a big brother held this nigga in high regard
Than the bullshit start
The choppers get cocked
Cause niggas around my away don't fight no more gotta be like kobe
