

Blue

Freddie Hart

Blue blue blue so blue but what what can I do I'm lost without
you

For a little while I owned all the world
For a little while you were my girl
Then you just went away and left me behind
Now the next thing leavin' me would prob'ly be my mind
Blue blue blue so blue but what what can I do I'm lost without
you

For a little while blue was just a word
For a little while no cries would ever heard
But things are different now since you said goodbye
All the time is crying time so lonesome I could die
Blue blue blue so blue but what what can I do I'm lost without
you
