

# The First Time

Freddie Hart

I remember the first time we met,  
You smiled at me,  
I asked your name and told you mine.

I kissed your sweet lips  
and the thrill you left on mine

Baby you were exciting  
and so inviting

I remember when I touched you the first time  
and held your tender body

The sweet feeling, for the good times  
we've been knowing  
seems to have been growing
