```
Now buckle down and start building up
That better world that you would rather live in
What are you waiting for? There's no time to waste
Now pick up your spade and dig in
The tables are turning
Oh, oh, oh
Rooted to the spot in future-proof rubber boots
I need to see you sweat and work hard
What are you waiting for?
Where are you aiming to run
It's time to play our last card
The tables are turning
Look up and you'll see
The tables are turning
We can make a change
We can make a change
We can make a change
We can make a change (huh)
We can make a change
We can make a change (change)
We can make a change
We can make a change
Now buckle down and start building up
That better world that you would rather live in (huh)
What are you waiting for? There's no time to waste
Now pick up your spade and dig in
We can make a change
We can make a change
We can make a change
We can make a change (huh)
We can make a change
Now buckle down and start building up
That better world that you would rather live in
What are you waiting for? There's no time to waste
Now pick up your spade and dig in
We can make a change
We can make a change (change)
We can make a change
We can make a change (huh)
We can make a change
We can make a change (change)
We can make a change
Rooted to the spot in future-proof rubber boots
I need to see you sweat and work hard
What are you waiting for?
```

Where are you aiming to run
It's time to play our last card
