

# One Step Into Wonderland

Freedom Call

Take away the darkness from your heart

Don't stop believing, I'm going back for sure  
Angels shine the right way to our Wonderland  
And don't forget the reason on the quest we are  
A sign will show the stairway to the end of mountains high

We're living in world beyond the horizon  
All the way to heaven divine  
Forever and ever  
We are living in a World of Glory

One step into Wonderland  
Take away all sorrow and pain  
In Wonderland  
An island divine  
Take away the darkness from your heart

We're heading for Eden. A love that's so secure  
A star will lead our journey to the end of mountains high

We are living in world beyond the horizon  
All the way to heaven divine  
Forever and ever  
We are living in a Wonderland

One step into Wonderland  
Take away all sorrow and pain  
In Wonderland  
An island divine  
Take away the darkness from your heart  
One step into Wonderland  
Wonderland

We are living in world beyond the horizon  
All the way to heaven divine  
Forever and ever  
We are living in a World of Glory

One step into Wonderland  
Take away all sorrow and pain  
In Wonderland  
An island divine  
Take away the darkness from your heart
