

# The Rhythm Of Life

Freedom Call

Resurrection energy inside  
Something that I can't define  
Mystery - I leave my fears behind  
Something that seems so divine  
Over and over again  
In The rhythm of life

Intoxication's running through my veins  
Confusion - I'm going insane  
Fever waves are smashing up my brain  
Illusions and madness remain  
Over and over again  
In The rhythm of life

The rhythm of life - a river of life  
On my way to paradise  
The rhythm of life - a river of life  
The one that keeps us all alive

A fascination penetrates my mind  
Hungry - I'm longing for life  
Time for me to spread my wings and fly  
Hungry - I try to survive  
Over and over I try  
In The rhythm of life

The rhythm of life - a river of life  
On my way to paradise  
The rhythm of life - a river of life  
The one that keeps us all alive

Resurrection energy inside
