

# We Could Be Friends

Freelance Whales

I am convinced that we could be friends  
We have several interests in common  
In common

And I am convinced that we have been friends  
Were you a Tahitian grain of sand  
In a past life?

Please don't put your face into your hands, we could be friends  
Please don't put your face into your hands, we could be friends

I am convinced that we should be friends  
We compare our hearts to things that fly  
But cannot land

Please don't put your face into your hands, we could be friends  
Please don't put your face into your hands, we could be friends

Please don't put your face into your hands, we could be friends  
Please don't put your fret into the ways we could be friends

Please don't put your face into your hands, we could be friends  
I can count the ways on my two hands, we could be friends
