

# Down And Funky

## Freestyle

Looking at you  
I see you're alone  
And I've seen you  
'Round here many times before  
I think it's time  
Got you on my mind  
We could get together girl

I feel you all night  
Across the floor  
I just don't know what  
You've been waiting for  
Just come on over to me and  
I promise I'll be good to you baby  
'Cause I've got what you're looking for

To fall in love with you  
Is what I'd really like to do  
To fall in love with you  
Is what I'd really like to do

So let's get down  
Let's get down  
Let's get funky

Now that I've got you  
I'm holding you tight  
Ooh, can you feel it  
It just feels so right  
I want you to be kissing me  
And caressing my body  
Baby, baby do it to me  
All night, all night

I know you can feel it too  
Oh babe, when I was looking at you  
You look so good  
Like a whip cream  
On top of my ice cream  
My favorite flavor  
Do me a favor  
Babe come over here  
And get to thy neighbor  
Oh  
Hold you, mold you, unfold you  
Low and behold you too  
I think you know what's on my mind  
Keep the place standing tonight  
'Cause I won't stop 'til  
I know you're mine
