

Painkiller

Freestylers

I'm reaching in my cupboard for a painkiller
uh uh uh uh
for a painkiller killer killer killer..

see we work hard
play hard
man i gotta stay charged
can't sleep
tired out
trouble on my radar
running round live wire
had another red bull
everybody running baby
let me come and get a pull
isn't it incredible
that i'm even still awake
still alive
still i take
poison that rehabilitates
fuck a little line
we can go ahead and kill a case
living in a killer state
maybe thats a good excuse
see me taking shots at the bar
like i'm bullet proof
now my belly full of juice
i'm walking everyday
wiv a bruised lip
battered eye
beat up state liver..

i'm reaching in my cupboard for a painkiller uh uh uh
i need another painkiller
reachin in my cupboed for a painkiller uh uh uh
i need another painkiller
they call it painkiller
let it go
painkiller uh uh uh
i need another painkiller
reaching in my cupboard for a painkiller uh uh uh
i need another painkiller
they call it painkiller
let it go

now we live fast
die young
wish i'd never tried none
saturated chemical
but i dont wanna die mum
maybe you could try some
no point wasting it
first there was a little bit
but now i got my face in it
run around chasing it
everything is so hot
everybody screw faced
looking like so what

pressure and it won't stop
pushing up my heart rate
arguments and attitude
mate you don't wanna stop me
listen bruva cant wait
now i gotta close this
woke up shivvering
and swimming in my own piss
its just my own risk
a real brain splitter

i'm reaching in my cupboard for a painkiller uh uh uh
i need another painkiller
reachin in my cupboed for a painkiller uh uh uh
i need another painkiller
they call it painkiller
let it go
painkiller uh uh uh
i need another painkiller
reaching in my cupboard for a painkiller uh uh uh
i need another painkiller
they call it painkiller
let it go
