

Farewell Scenery

From Dawn To Fall

Love, we share, we feel, we fuck, we hope, we die, we live, we
burn

we share, we feel, we fuck, we hope, we die, live, burn...

Frozen signals pending backwards
Senseless carry on
I reach a point where I prefer to fall
And leave the dawn

Every step you make
Throws me back
Kill the line and
Cut the wire

Can't you see that this is our goodnight
And I'm dying here
Can't you see that this is our goodnight
And I'm dying here this time

Take your breaths now deeper
Cause now it's time
I cut the line and pull the trigger
My promise - you will be fine

Every step you made
Threw me back
Killed the line and
Cut the wire

Can't you see that this is our goodnight
And I'm dying here
Can't you see that this is our goodnight
And I'm dying here

If you're holding on tonight
Can't you see that this is our goodnight
And I'm dying here

We loved, we shared, we felt, we fucked,
We hate, we fight, we kill - we've never tried
Shout it out I'm dead
