

## Runaway

## From Dawn To Fall

I remember years ago  
You were eight and I was nine  
The whole world it seemed just fine  
That night we were so innocent  
Not a clue what's going on  
Now it all just feels so different

Let's run away  
We don't need to stay  
Cause you're here by my side

I'm sick of everyone else  
Of all their nagging constant bragging  
Every day's the same  
And no one's there to blame  
But every time I turn around  
I feel the urge to escape  
And we never want to come back to this place

Let's run away  
We don't need to stay  
In this harsh reality  
The future isn't scary after all  
The only thing that keeps my alive  
Is you here by my side

Come with me  
Don't let me go  
There's something you should know  
I just want you to know  
Come with me  
Don't let me go  
I want you to know

Let's run away  
We don't need to stay  
In this harsh reality  
The future isn't scary after all  
The only thing that keeps my alive  
Is you here by my side

Let's run away  
We need to stay  
Cause you're here by my side  
By my side
