

# Breaking My Bones

From Indian Lakes

I'm always home not for myself  
But it was about me  
Every song has been about me  
And I saw it all  
And I fought to tell  
As if it was about me  
Every dream has been about me

And my love of making everyone my downfall  
And if they serve while it is only by my instruction

Breaking my bones (3x)  
And if I find another bone to break  
I hope it's only my own  
Breaking my bones (3x)  
And if I find another bone to break  
I hope it's only my own

I discard everything I know and everywhere I go  
I kiss the lips of creatures that I barely know  
And would never touch again  
I feel like I find another shows  
And walls around me grow  
My fingertips are cows but I'm having trouble  
To steer these walls again

I'm sure you'll never call (8x)
