

# No One Else

From Indian Lakes

You stay up with the lights off in your room  
It's not enough, in your bed, no one next to you  
But I'm not leaving, I'm just tryna hold your hand  
You shut me out when I just wanna understand

Can I come over when you're back in town?  
I wanna get high with you and lose ourselves  
When it's all over I can bring you down  
I wanna be alone with you and no one else  
And no one else

You're a gallery, every piece is a different thought  
Perfectly darker dreams, you're never caught

But I just wanna be there when you feel this way  
I feel you moving, I know I'm just in your way

Can I come over when you're back in town?  
I wanna get high with you and lose ourselves  
And when it's all over I can bring you down  
I wanna be alone with you and no one else

Can I come over when you're back in town?  
I wanna get high with you and lose ourselves  
And when it's all over I can bring you down  
I wanna be alone with you and no one else  
And no one else
