

Search for More

From Indian Lakes

We don't feel at all
With our hands out
We beg for more
You clearly died when I heard the call
You black out, I search for more
You fall in love
Don't waste it all
It won't be long, but if I can't make it back,
Will I know you're not alone and fading?
Do we see the same blue eyes? I gave nothing back

You think you know whats coming till you're fading
Don't close your eyes
Does it hurt at all to find out you're nothing more?
I waited night after night after night
Will you come out? I thirst for more
Just close your eyes
