

## When You're Around

From Indian Lakes

When you call my name  
I shudder at the sound  
When the words are familiar  
I get up then come back down  
When you're off for the summer  
We'll get lost among the clouds  
We can toss around the river  
I'm in love when you're around

Did you lose your way?  
Leaving bread crumbs on the ground  
When the sun starts to flicker  
When the moon is comin' around  
When you're lost in the garden  
When you're wasted away to the ground  
Can I waste with you darling?  
I'm in love when you're around

Oh, when lovers cross  
All the mountains of our doubt  
Push to break our hearts  
See we're not so fragile now  
When you're laying in the grass  
You remember when love was found  
Hold my heart in your pocket  
I'm in love when you're around
