

# The Devil

From Our Hands

Simple task  
Leap of faith  
Will you jump  
Are you sane  
You have to think for a while  
have to think for a while

We are moving on  
Now you have to be strong  
You have to think for a while  
have to think for a while

Mind the rules  
They've made a heaven  
Tell the truth  
or they will show you the hell  
Innocent  
Won't live forever  
So just think for a while  
So just think for a while

The devil's got a disguise  
Get the devil out of me  
He rules the world now  
I just can't (I just can't, I just can't, can't) stand it

People sick  
People sane  
Everyone knows his name  
With the fear in you eyes  
You won't see the disguise

Cheer yourself up  
It's time for thinking  
Cheer yourself up  
Don't let the devil bring you down

He's under your skin

The devil needs your weak side  
Like the wind needs the tree  
He rules the world now  
I just can't (I just can't, I just can't, can't) stand it
