Love Song

Full Devil Jacket

You, I want to love you And you, I would break True, I can only hold you And you, I'd never take

Thought you were my friend Now it's over I cannot pretend I feel below her

You, I want to love you And you, I would break True, I can only hold you And you, I'd never take

Nails into my back Worms within me There's no turning back She's within me

I only wanted love Feels like so cold

I wanted, I wanted
I wanted, I wanted love
I'll never, I'll never, I'll never
?Cause I don't need that

Don't want love, never needed it Well, you took my life
And you took my soul
And you threw it all away

You, I want to love you And you, I would break True, I can only hold you And you, I'd never take

You, I want to love you And you, I would break True, I can only hold you And you

I only wanted love
And I only need someone to hold
You were there for me
Never cut you out and put you under me
