

Lost It All

Fun Lovin' Criminals

My heart breaks every time I see her
My heart breaks every time I turn around
My heart breaks every time I hear her name
My heart breaks now and again, it's a cryin' shame
Feels like I lost it all
My heart takes more or less the same as you
But you got your high class friends to
Get you through. Pitter patter, whats the
Matter you got a baby too?
You're all caught up in the lies
That got thrown at you
Feels like I lost it all
The earth moves every time I feel it
The ground shakes with every song I'm singin'
The earth moves 'cause I'll never be the same
My heart breaks 'cause I'm to blame.
Feels like I lost it all
