hey you, understand
quit now, start again
time to shut down automatism
time to let it fly
when I get up, late AM
I know, what I want
something more than a sketchy life
I know I want it all
and I won't compromise,
the big little white lie!

chorus:

Freedom, Freedom,
Freedom and Liberty
Freedom, Freedom,
Freedom and Liberty

one chance, one road
you better look for your own,
the gift of life is a wasted present
if you don't succeed!
Think, act, choose wisely,
don't hurt anybody;
that's the only groundrule people,
one law for the FREE!

and don't you compromise, the big little white lie!

chorus

chorus

when you got no hope and a broken soul, and blind ambition took your heart, get up, hey, step into Freedom and Liberty!"
