

Car Wars

Funeral Party

We fell out of progress a long long time ago
Forget what makes us different and then we'll take it slow
Finally we could catch up the things that we lost when the edis
ons passed away
And go back to the places that we were kids from the real world
and just stay

So get up so get out well come on
Cause we've fallen into ourselves
Well you tell that your lost so hold on
Cause we'll take it from the shelves
So get up so get out well come on
Cause we fallen into ourselves
And you tell that your lost so hold on
Cause we'll take it from the shelves

Lets discover a time a place where we gave it all we know
I won't hate you when your not around but I'll hate it when you
r gone
Cause it's you and I that could save ourselves and it's you and
I alone
And no one could ever escape themselves cause you know when you
feel at home

So get up so get out well come on
Cause we fallen into ourselves
And you tell that your lost so hold on
Cause we'll take it from the shelves
So get up so get out well come on
Cause we fallen into ourselves
And you tell that your lost so hold on
Cause we'll take it from the shelves
