

Around My World In 80 Days

Fury In The Slaughterhouse

And now we've finally reached the point
And you want to get in
I guess that I should tell you
That there's just one thing
Just a little journey, I have to send you on
Just to figure out
Where I'm coming from
And where you do belong

Around my world in 80 days
Maybe more if it pays
Around my love my evil ways
Around my head in 80 days
Discover dungeons of despair
That is what you have to share
If you walk this way with me
But our love will make us free

Might be that you'll like it
Could be that you're shocked
But don't hesitate to open doors
that seem locked
Maybe you'll find fear
Maybe you'll see clear
Maybe you'll find an open heart
So sincere
That want's you to be near

Around my world in 80 days
Maybe more if it pays
Around my love, my evil ways
Around my head in 80 days
Discover dungeons of despair
That is what you have to share
If you walk this way with me
But our love will make us free
