

All Night Long

Fuse ODG

[Fuse ODG:]

Oh Lord, have mercy
On me life, she thirsty
Messages are so dirty
Check on my phone, all I saw was
All night long, baby, give it to me all night long
All, all night long, baby, give it to me all night long

So I reply, oh I
I got a girl, can you leave me one time?
'Cause if she sees your message, I go die
Ask the last girl what happened the last time
Oh woah, too many temptation
Everywhere I do go, the mandem, they with me
They my witness, I ain't done nothing
Girlfriend check my phone like I've done sometin'
Message the group for the mandmem day
Girlfriend done check my phone, yeah
If you know I'm innocent, she kick me out my home, yeah
I told her there's no way, my baby's all I want, yeah
I woke up with my phone unlocked
When she check on my phone, all she saw was

(Oh, Lord)

All night long, baby, give it to me all night long
All, all night long, baby, give it to me all night long
All, all night long, baby, give it to me all night long
All, all night long, baby, give it to me all night long

Ay, me and the mandem debate
L-o-l's only, they cannot relate
I can't believe what really happened today
I don't smoke, my joke, I'm thinking my cigarette
Woah, too many altercation
Girlfriend on investigating operation
They my witness, I ain't done nothing
Girlfriend check my phone like I've done somethin'
Message the group for the mandmem day
Girlfriend done check my phone, yeah
If you know I'm innocent, she kick me out my home, yeah
I told her there's no way, my baby's all I want, yeah
I woke up with my phone unlocked
When she check on my phone, all she saw was

(Oh no)

All night long, baby, give it to me all night long
All, all night long, baby, give it to me all night long
All, all night long, baby, give it to me all night long
All, all night long, baby, give it to me all night long

[Stefflon Don:]

If she didn't know, I think she better know
You're always tryna hit me up
You're always on my phone
Telling me you can't live without me
But if you think you're gonna take me for a puppet show
That's a lie

I ain't gonna deal with your shit 'cause I done too fly
Ring dading, ding, dading
Why you dinging up my line?
Baby, you've been drinking on me, I been cutting all ties
You ain't gonna play me twice
[?] upon you, it a run for
Me sorry made it make a move for you're done for
You ever wish you didn't [?] ting back
Man play a game but me wicked wit a comeback
Dun too real for ya dunce boy ting
No shame, niggas call out my name, hype ting
But all I wanna do is get my nookies up
When I count a million pounds in the back of a army truck
