

Lights

Futuristic

Wake up in the morning
I ain't finished stretching and the yawning
But already that money keep on callin'
Everything else just seems more important
Yeah it's true, we all wanna be ballin'
You wanna be Jordan and even Harden
You gon' get that spotlight when you cross some
When you have abandoned then you lost [?]

'Cause I got all these lights on me
I can't get them off of me
I got all these lights on me
I can't get them off me, off me
I got all these lights on me
I can't get them off of me
I got all these lights on me
I can't get them off me, off me

Tossin' and I'm Turnin'
Forget about that money I've been earnin'
'Cause I feel like my life ain't have a purpose
'Cause all that I was doing just wasn't workin'
Now I'm about my family and my homies first
All the people that knew me before the verse
They just want the best but didn't saw the worse
Bein' on the road it turned into a curse

'Cause I got all these lights on me
I can't get them off of me
I got all these lights on me
I can't get them off me, off me
I got all these lights on me
I can't get them off of me
I got all these lights on me
I can't get them off me, off me

Yo
Shining and shed the light
And I blew up like dynamite
And they bitin' like a termites
Sometimes I wanna rewind it
Before I was known for rhyming
And I was at home with ramen
And eatin' the noodles with cousin
And laughing about the nonsense
And now it's constant headlights
And I'm always on a go, no red lights
I be up when it's everybody's else bedtimes
I put a pressure on myself for a deadline
And my family is never in the same place
People change from the minute that I got fame
Hard to trust folks, puts you in a dark place
But I gotta act like everything is okay

'Cause I got all these lights on me
I can't get them off of me
I got all these lights on me

I can't get them off me, off me
I got all these lights on me
I can't get them off of me
I got all these lights on me
I can't get them off me, off me
