

Pull Up

Futuristic

Yeah, hey
Woah, hey, yah
I pull up on 'em, I pull up on 'em
Yeah

Okay, I pull up on the East side
You know how a G slide
Throwing up the peace sign
Let me hit it three times
That's just how it be (huh)
That's just how it be (what)
That's just how it be (huh)
That's just how it be (what, what, what)
Used to drive a Nissan
Drinkin' on Capri Suns
Now I got a sweet ride
She gon' lick it three times
That's just how it be (huh)
That's just how it be (what)
That's just how it be (huh)
That's just how it be (what, what, what)

Yo, okay
Lately I been feeling myself
They know I still got a belt
Fresh to death, ooh, killin' myself
Revealin' myself
She want a flick with the kid (Boss)
Dope, dealin' myself
I could lose everything all in a second
Pick up the pieces and rebuild it myself
I'm just riding it, motivated
I'm grinding, it's overstated
My timing is picture perfect
When I slide in, I know they waitin'
Giant, there's no mistakin'
Been winnin' for ten
Know that's a decade
Check the head space
I'm good at it

Okay, I pull up on the East side
You know how a G slide
Throwing up the peace sign
Let me hit it three times
That's just how it be (huh)
That's just how it be (what, what, what)
That's just how it be (huh)
That's just how it be (what, what, what)
Used to drive a Nissan
Drinkin' on Capri Suns
Now I got a sweet ride
She gon' lick it three times
That's just how it be (huh)
That's just how it be (what, what, what)
That's just how it be (huh)
That's just how it be (what, what, what)
