

Used To

Futuristic

Yeah-yeah, yeah-yeah
Yeah-yeah, yeah-yeah, yeah-yeah
Yeah-yeah, yeah-yeah
Yeah-yeah, yeah-yeah, yeah-yeah

They want me, they got me
They love me, they watch me
I switch up, they drop me
I hit 'em, they copy
They want something new, they want something new
They sick of that, they want something new
You used to do, I grew out of that
They don't follow that, I told 'em holler back

You need somebody to get you through your life
I know I could be the one to get you right (Alright)
If you stick with me, it's fine along the ride
We can go together if you take the time (All right)

Used to, used to
They want me to do what I got used to
Used to, used to
But I'm not the same dude that you used to

They need me, they clean me
Give knowledge, used to free me
They judge me, don't know me
They think that we homies
I give up all that I can give up
I don't let them give up, try to help them get up
They hate me, they space me
Forgot me, yeah, erase me

Yeah-yeah, yeah-yeah
Yeah-yeah, yeah-yeah, yeah-yeah
Yeah-yeah, yeah-yeah
Yeah-yeah, yeah-yeah, yeah-yeah

You need somebody to get you through your life
I know I could be the one to get you right (All right)
If you stick with me, it's fine along the ride
We can go together if you take the time (All right)

Used to, used to
They want me to do what I got used to
Used to, used to
But I'm not the same dude that you used to
Yeah-yeah, yeah-yeah
They want me to do what I got used to
