

# SHAKE THE WORLD

G-Dragon

Shake the world, shake the world  
Shake the world, shake the world

I'm back, the master of the kingdom  
Zoom in your ears, the high-handed G.D.R.A.G.O.N  
My rap is a harpoon, a piercing iron bar, a word massacre, killing it since the beginning

Everyday my birthday, everyone is like a swarm of bees  
We dance, we sing, all day, we all day  
Shut up and follow me, throw a fit like you're crazy, you and I  
have become one, it's on  
Since I was born

Shake the world, shake the world, the fakers will come out, the  
real ones are different  
Shake the world, shake the world, when you see me, you'll know  
it's the answer  
Since I was born  
Shake the world, shake the world, since I was born  
Shake the world, shake the world, since I was, since I was, since  
I was born

I'm back, the master of the kingdom  
Zoom in your ears, the high-handed G.D.R.A.G.O.N  
My rap is a harpoon, a piercing iron bar, a word massacre, killing it since the beginning

We come from different places but our roots are arariyo  
We come from different places but our roots are arariyo  
This is just k-pop, what's the big fuss about mainstream?  
Hold up, hold up, hold up  
Music I've been making for the past year, all it takes it just  
one minute of a preview  
Stashing it in your cell phone or the recycle bin?  
This isn't musical education, but they ask questions to get answers  
they want to hear  
Just know that music is just music  
(Hold up, shut up) However you want, your hand, body, soul, shake it

Everyday my birthday, everyone is like a swarm of bees  
We dance, we sing, all day, we all day  
Shut up and follow me, throw a fit like you're crazy, you and I  
have become one, it's on  
Since I was born

Shake the world, shake the world, the fakers will come out, the

real ones are different  
Shake the world, shake the world, when you see me, you'll know  
it's the answer  
Since I was born  
Shake the world, shake the world, since I was born  
Shake the world, shake the world, since I was, since I was, sin  
ce I was born
