

# The Plug

G-Unit

If y'all niggas need straps, then get at me  
I'm the plug  
Well, if you need that, then get at me  
I'm the plug  
Dope, coke, crack, man get at me  
I'm the plug  
Holla when you need it; my price you can't beat it

We move the work like it's water  
Stuff a quarter in your daughter  
Cash flow like the Nile  
I mean like right across the border  
You to get it; I got it  
If I ain't got it, I get it  
Fill your spot up with product  
I got the straps for your hitters  
Look here, my price is my price  
Fuck is ya estimate nigga  
Figure you bite the bullet, I bang it  
Get to bustin', it's nothin'  
Wave it, blaze it  
Hit the bullseye; I don't graze shit

AP around me lately  
C-notes serenade me  
The smell made me crazy  
Product of the Eighties  
Numero uno  
I'm out a legendary group ho  
My souls too cold  
They blocking me, I found a loophole  
I'm new gold  
I got a couple dimes from Panama  
I make a little girl out an amazon  
Run on me, I'm squeezin' like an anacon'  
Then I'm gone, years from now I bet my power steer my lawn

I believe I was born to ball  
Penetrate the pussy, unless it smell like old tennis balls  
I'm a rapper; I got a problem being punctual  
A mill at 26 these other rappers, man, they got the gall  
To even think they on my level  
Sports-Illustrated model all in my condo  
Ice in the pot  
In the trap, I'm Sir Mix-a-Lot  
'Bout to spend a mill on a car lot

Streets dried up  
Get tied up for small packs  
Niggas workin'  
Phone wired up, don't call back  
I'm a surgeon; I put shit back together  
I determined to bring my black MAC wherever  
Niggas lurkin'; this ain't the place to be  
Fuck a hit  
Niggas'll blow up your face for free  
Sunday sermon, preacher keep on facin' me

It's like every word he sayin' just relates to me
