

# Fickle

Gabe Bondoc

I told her I loved her  
But I can't remember why  
This is a bad bad sign

I can't even hold her  
Just sitting here as she cries  
I'm just a bad bad guy

Cut it out for good  
Cut if out for good  
If I could

Wish that I still felt the same  
my fickle heart's to blame  
my fickle heart's to blame

Only knows to push away  
It never wants to stay  
It never wants to stay

Cut it out for good  
Cut if out for good  
If I could

She wants me to tell her  
All the things that I used to see  
I don't feel that way

So she says to say something  
If only to feel this way  
I've tried I'll try I'll try

Cut it out for good  
Cut if out for good  
If I could

Wish that I still felt the same  
my fickle heart's to blame  
my fickle heart's to blame

Only knows to push away  
It never wants to stay  
It never wants to stay

Cut it out for good  
Cut if out for good  
If I could

Wish that I knew  
What the problem was  
Why I'm so cruel

The instability  
No I'm not happy when I'm happy  
Curse this fickle heart inside me  
Move on  
You're better off

Wish that I still felt the same  
my fickle heart's to blame  
my fickle heart's to blame

Only knows to push away  
It never wants to stay  
It never wants to stay

Cut it out for good  
Cut it out for good  
If I could

I'll Cut it out for good  
Cut it out for good  
If I could
