

Life Can Be so Beautiful

Gabin

I'm a stranger in your town that's right
who i am and what you see could change tonight
there's something in you that i see in me
it's a vibe that we're feeling its just khemistry

freedom freedom
freedom freedom

there's a light in the sky and it won't go out
every night i wonder ya'll, what its all about
there's a brother in the corner making his move
watch that lady how she smiles cause
she feel's his groove
let me tell u 'bout

freedom freedom
freedom freedom
life can be so beautiful
can be so beautiful
life is so beautiful

there's a man in chains
right next to you
but he ain't your problem cause
you got your own blues
his life is a mystery in his own mind
he passes through life lost and blind

freedom freedom
freedom freedom

there's a road up ahead we can take
right or left its our choice to make
if time is my dealer then i'll seal my fate
cause i hold the keys long as i keep the faith
lets talk about

yeh yeh
life can be so beautiful
can be so beautiful
life is so beautiful

mehsay funk to funk to the freaky dawn

freedom freedom

lets talk about freedom
gonna freak u down right on down

i like it when u call my name
i like to watch the people pass on by
yeh, i'm just here living my life
