

I Remember

Gabrielle

Do you remember
Do you remember
Do you remember
Do you remember

I'm left with all these memories
Anywhere I turn you're holding me, yeah
And the time I try to get you out of my head
It's just too hard, some things you can't forget

Cause I remember
(Do you remember)
I remember when

You used to make me feel like
I was someone special
You've been the love of my life
From the first time I met you
How am I supposed to feel now?
I've no longer got you
Cause I remember when we were one
I remember, yeah
I remember

I count the days that you've been gone
I'm raking over what went wrong
And I can't be loved again by you
Don't think I'll make it cause no one else will do, no

Cause I remember
(Do you remember)
I remember when

You used to make me feel like
I was someone special
You've been the love of my life
From the first time I met you
How am I supposed to feel now?
I've no longer got you
Cause I remember when we were one
I remember
I remember when we were one
I remember
Cause I remember when we were one
I remember, yeah
I remember when we were one
