

If I Walked Away

Gabrielle

Uhuh
Uhyeah

After all is said and done
How can we carry on?
And after what you've done to me
How did you think that I would be?
You had your chance
When I took you back
Now we're here again and you're hurting me

What would you do?
What would you say?
If you found me gone
If I walked away
What would you learn?
Would your heart be burned?
What would you do babe?
What would you say?
If I walked away

All the promises you made
They never saw the light of day
Many times you said you'd changed
I was a fool to wait
You had your chance
When I took you back
Now we're here again and you're hurting me

What would you do?
What would you say?
If you found me gone
If I walked away
What would you learn?
Would your heart be burned?
What would you do babe?
What would you say?

Now that you've been pushing me I'm close to the edge
I'm losing all patience
I have nothing left
We've been here before
I can't take it no more
I've tried

What would you do?
What would you say?
If you found me gone
If I walked away
What would you learn?
Would your heart be burned?
What would you do babe?
What would you say?
If I walked away

(what would you do)
If I walked away

(what would you say?)
If I walked away
(what would you do?)
Tell me would you feel the pain?
Feel the pain
If I walked away
