

It's Breaking My Heart

Gabrielle

We will never
Ever share another kiss
I can't believe it's come to this
Just polite conversation
Is all there will ever be
Between you and me

Do I treat you like a stranger
Oh-oh pretend that I don't know ya
Oh oh oh

And it's breaking my heart
Look how easy love can fall apart
It's been breaking my heart
I wish that we could go back to the start

I'm still searching
For something that will numb the pain
Every time I hear your name
Can't believe the situation
Never thought I'd live to see
You without me

Do I treat you like a stranger
Oh-oh pretend that I don't know ya
Oh oh oh

And it's breaking my heart
Look how easy love can fall apart
It's been breaking my heart
I wish that we could go back to the start

And it's breaking my heart
And it's breaking my heart
And it's breaking my heart
I wish that we could go back to the start
