

Knew Me

Gabrielle

Now you're wondering how we got here
But I already know
You're the one who took the chance
You let me go
You showed me no love

Now you're saying that you're sorry
But I already saw
Disaster and destruction if I open the door
Just leave me, just go

Baby, if you knew me
You would have seen right through me
You only had to love me
And never let go
Baby, if you knew me
You'd see that it's a new me
I'll never let you hurt me
It's your loss

Try to understand that I won't take you back
There's no way on this earth I'd ever
Give you a chance
You used me, but no more

You said you tried to find yourself while
You were away
Well, I've got news for you, baby I did the same
It's over, let me go

Baby, if you knew me
(If you knew me)
You would have seen right through me
(Would have seen right through)
You only had to love me
(You only had to love me)
And never let go
(And never let go)
Baby, if you knew me
(If you knew me)
You'd see that it's a new me
(See that it's a new me)
I'll never let you hurt me
It's your loss

And I told ya that if you played away
I would show ya
There'd be no way back for you
It's over, it's over believe me everything
I'm saying is true

Ooh...
Everything I'm telling you is true

Baby, if you knew me
(If you knew me)
You would have seen right through me

(Would have seen right through)
You only had to love me
(You only had to love me)
And never let go
(And never let go, go, go)
Baby, if you knew me
(If you really knew)
You'd see that it's a new me
(Would have seen right through me)
I'll never let you hurt me
(Never hurt me)
It's your loss

Baby, if you knew
You would have seen right through
Never let go
