

# Symphony of glory

Gaia Epicus

Into the story and out of the storm  
Dark times have been before  
A quest for a dream was the strength of it all  
The reason to carry on

We are fighting for a dream that we have  
And no one shall stand in our way  
No matter how long it takes, we shall over come  
Cause believe me the day will come

When you will hear a symphony of glory  
As your dreams come true  
A victory to show them all that never did believe  
The symphony of glory is real

Inside every heart there's a fire that burns  
But there are so many rainy days  
Hold on to your dreams cause they will make you strong  
And in the end your time will come

Sometimes life is so hard  
And everyday is a struggle to survive  
Keep on dreaming and you will see  
That your dream becomes reality

It's the symphony of glory  
And it's here to stay for eternity  
The symphony of glory  
The song of a victory
