

The System Is Down

Gaia Epicus

The system is down, sound the alarm
A virus is now on the way
Firewalls to protect the holes
All we can do now is pray
Power failure, shutting down, you must try to reboot now

Die, Painless infection
Die, No resurrection
Die, Destroy the creation
Die, The system is down
Download complete, the damage is done
The virus is now spreading fast
Infiltrating, dominating
Just like a nuclear blast
