

Chemical Reaction

Galactic Industry

Strange love, strange day
One question: Is it real?
When you fall in love
You think, never mind
It's only chemical
Reaction in brain

No way, no lies
One answer: It's impossible
To love anybody else
Than your wife
All the rest is only sex

Welcome to the world
Of my dreams
Now you can see
My real face
Welcome to the world
Of my dreams
Now you can see
My real...face

You need clean mind
All what you wish for today
You want to love
Only your wife
But you can't eliminate
Small love for one night

Welcome to the world
Of my dreams
Now you can see
My real face
Welcome to the world
Of my dreams
Now you can see
My real...face

Welcome to the world
Of my dreams
Now you can see
My real face
Welcome to the world
Of my dreams
Now you can see
My real face
