

# Beyond The Mirror

Galloglass

Voices from the other side  
Behind stained glass  
They're waiting for a guest  
Reflections, distortions of yourself  
Wrathful shadows  
Are living in this maze

Eyes in a mirror world  
Reveal your truth of your inner views

Time is lost without a trace  
Deep inside this mirror mace  
Shadows in a haze  
Like demons with your face

Darkness imprisoning the mind  
Dead close to madness  
The verge of despair  
Soulless grimaces so unreal  
Indicating traits  
That are lying deep within

Eyes in a mirror world  
Reveal your truth of your inner views

Time is lost without a trace  
Deep inside this mirror mace  
Shadows in a haze  
Like demons with your face

Time is lost without a trace  
Deep inside this mirror mace  
Shadows in a haze  
Like demons with your face

Phantoms of hate and death appear  
Inverting every mind  
Daring to go inside  
Illusions or reality  
The day of reckoning  
Uncovering our souls

Eyes in a mirror world  
Reveal your truth of your inner views

Time is lost without a trace  
Deep inside this mirror mace  
Shadows in a haze  
Like demons with your face
