

Premonition

Galneryus

In this world where slavery is common
When a cold war between two great nations ended with a conflict
,
war broke out
Slaves become the most convenient resource of conscripts
There is one slave who was drafted because of
his high physical ability
This is a story of a man who was forced to stand for his countr
y
By giving victory, he is promised to be free from slavery
Sent to the field he can never lose
At the mercy of time
Struggles against his fate
Not to protect the national dignity
But just to protect his wife and his loved ones
Now, he raises his sword underthe force of courage
