

## Still Loving You

Galneryus

Wonder why you left on that night  
Wonder what you thought at that time  
What can I do? Have I lost you?  
What should I do? Have I lost you?

The season passes early for me  
Something is lost from my body  
Crazy about you Love you from my heart  
Still loving you Love you from my heart

I regret my very happy days  
Memories are fading away  
I feel the night and days  
Somebody said "You must forget"  
(But) I can not do yet  
It's cold in my bed

Oh there is no woman meant more than you  
I wanna meet wanna touch  
Do you hear this prayer of me?  
I thought that love with you was forever  
I miss you We'll surely meet in the future  
I don't know where and with whom you live now  
It is not in my mind  
Now all of you are not mine  
I thought that love with you was forever  
I miss you We'll surely meet in the future

And I wish this pain would go  
There is your shadow  
Somebody said "You must forget"  
(But) I can not do yet  
It's cold in my bed

Oh there is no woman meant more than you  
I wanna meet wanna touch  
Do you hear this prayer of me?  
I thought that love with you was forever  
I miss you We'll surely meet in the future  
I don't know where and with whom you live now  
It is not in my mind  
Now all of you are not mine  
I thought that love with you was forever  
I miss you We'll surely meet in the future  
I'm so sad I wanna meet you in the future
