We've been searching for our sense of life Just for the faith

Now we are completely invincible
We are united, power, (and) force of courage
We'll fight just for reality of this world
We never give up and surely raise our swords
Force of courage...

IV. Pray To The Sky

Even if we fell down on the ground,
we strongly believe (the) light lights up our feet (and)
keep going to win (and) never lose our faith
We are the force of courage

Even if we fell down on the ground,
we only believe (that) we can see the rising sun
Keep going to win (and) never lose our faith
Until the end...

Pray to the edge of the sky
We go to where no one could ever see
Pray to the edge of the sky
Surely we carry out promise with you
Til the end we will keep fighting for you
Til the end I will stand there for you
And we will (surely) stand on the promised land,
we'll raise our swords, and raise our flag...
