

# I Didn't See That Coming

Gary Barlow

That kiss on the lips  
That fire that we lit  
That first New Year's Eve  
Our excuse to leave

That first time you cried  
That holding on tight  
Being loved and loving  
I didn't see that coming

The bride's arrival  
Those words from the Bible  
That kicking within  
Not knowing where to begin

New faces around us  
That spotlight that found us  
All that from nothing  
I didn't see that coming  
That warmth in my stomach  
I didn't see that coming

I'm a man who has imagination  
But I couldn't write you a story like this  
Every turn every twist

That name on the door  
Oh that pain to the core  
No hello just goodbye  
All that asking God why

Those years on our knees  
Oh that climb to our feet  
Those tears that came flooding  
I didn't see that coming

That candle-filled cake  
That old song again  
Embracing that age  
More pictures in frames

Kisses goodbye  
Looking back at good times  
All went by so sudden  
I didn't see that coming  
This song that I'm strumming  
I didn't see that coming

Here's to never knowing  
And never seeing that coming
