

Down to Ride

Gary Clark Jr.

Baby I want your love,
Baby I need your love,
Baby I want your love,

From the first moment I knew,
I really want to know you,
I ain't never met nobody like you,
you make me want to show you, the world,
I used to feel alone, I used to feel alone,
'til I got you,
I used to feel alone, I used to feel alone,
'til I got you,
My Love, My...my love, My love, my...
I wouldn't be alone, cause,
I got a girl, who's down to ride, with me,
damn she looks good on that passenger side, with me,
no more time to waste, thinking 'bout the past,
just that rear view got my foot on the gas, yea,
I got a girl, who's down to ride, with me,
From the first moment I knew,
I wanted this forever and ever, baby.
Baby, I'ma always be around,
'cause we're in this together, yea.
So when you feel alone, when you feel alone,
baby just know I got you,
when you feel alone, when you feelin' lost,
baby just know I got you.
My love, my love,
my love, my love.
I wouldn't be alone, cause,
I got a girl, who's down to ride, with me.
Damn she looks good on the passenger side, with me.
No more time to waste, thinking 'bout the past,
just that rear view got my foot on the gas, yea.
I got a girl, who's down to ride, with me.
Thank god,
I got a girl, who's down to ride, with me.
