

# What About Us

Gary Clark Jr.

Call it what you want, you can call it what you want  
Yeah

Farmer Steph Williams was cool as a band  
He ran the neighbourhood, was the man in demand  
Farmer Steph Williams got too hot on the block  
They ran him outta town then the whole operation stopped

Saying "What about us?"  
Everybody saying "What about us?", yeah

There goes the neighbourhood, one way or another  
You can call it what you want  
But the young blood's taking over  
Don't get too comfortable, just plan on moving over  
'Cause things gon' stay the same  
It's the same thing over and over

Saying "What about us?"  
Everybody saying "What about us?", yeah

Hey Mr. Williams, what you gonna do now?  
You done got way too big for the little big town  
Made on up, can't you decide when you come around  
And everybody wants it now  
And the voices keep getting louder

Saying "What about us?"  
Everybody saying "What about us?", yeah

There goes the neighbourhood, one way or another  
You can call it what you want  
But the young blood's taking over  
Don't get too comfortable, just plan on moving over  
'Cause things gon' stay the same  
It's the same thing over and over

"What about us?"  
Everybody saying "What about us?", yeah  
"What about us?"  
Everybody saying "What about us?", yeah  
Ooo, "What about us?"  
Everybody saying "What about us?", yeah

There goes the neighbourhood, one way or another  
You can call it what you want  
But the young blood's taking over so  
Don't get too comfortable, just plan on moving over  
'Cause things gon' stay the same  
It's the same thing over and over  
"What about us?"  
Everybody saying "What about us?", yeah

There goes the neighbourhood, one way or another  
You can call it what you want  
But the young blood's taking over so  
Don't get too comfortable, just plan on moving over

'Cause things gon' stay the same  
It's the same thing over and over  
"What about us?"
