First thing I always used to say to guys
When I made my entrance
Never did love get in the way
It will ruin your independence
Never focus too long in one place
[?] got number
Suddenly we came face to face
And the next minute I went under

(Crash) I've falling in love
(Crash crash) I've fallen

Baby, you got expensive tastes
That's alright quit your [?]
Why don't you find an expensive place
I'll take care of your money
We could live in the Taj Mahal
Would you like it I wonder
I don't know what's come over me
[?] [?]

(Crash) I've falling in love
(Crash crash) I've fallen

Something I don't understand
What's man suppose to do
I only know it can't be planned
It happened when I looked at you
[?] [?]
[?] go to girlfriends' parties
Late at night and talking sex
Don't forget where the heart is
But up [?] everything parasails
Treat them nice when they phone you
You can stay in the best hotels
As long as its me your coming home to

(Crash) I've falling in love
(Crash crash) I've fallen
(Crash) I've falling in love
(Crash crash) I've fallen
