

Hunger

Gary Numan

Tell you a story
bout a friend of mine
Woke up in this room
Looked like... black and white movies

No light
And someone strange in the bed
She said
You could be here forever

Can you feel me?
Im the new disease
Im like a hunger
That youve never known

Do you want me?
Ill take everything
Im like a hunger
Lying in your heart

He made excuses
Tried to leave the room
She said
Im the disease and the cure

Skin mechanics
Couldnt help you here
The nature of need
Leaves you junk sick and lonely

Trick it up
Trick it up good

She moved
Like a ghost to the door
She said
This is a re-al love story

I heard his voice
And walked in on it all
She said
You could be here forever
