

This is icehouse  
I've seen them, I've seen the danger  
I've seen some things  
I'll remember if I live forever.

I need dream killers  
I need your pictures  
I don't need heroes  
I need opinions  
I need religion  
I don't need heroes

I'll use the trick  
It hurts but I'm thinking clearly.  
You bite with sound  
Recorded speech is in the throat of your God

I need dream killers  
I need your pictures  
I don't need heroes  
I need opinions  
I need religion  
I don't need heroes

Don't break my heart

I need dream killers  
I need your pictures  
I don't need heroes  
I need opinions  
I need religion  
I don't need heroes

Wrong place, wrong time.  
The American dream's sure to save me.  
One more mistake,  
So this is the art of survival.

I need dream killers  
I need your pictures  
I don't need heroes  
I need opinions  
I need religion  
I don't need heroes
