

# Sleep by Windows

Gary Numan

You can cry by my window  
You can crawl on the floor  
You can scream if you want to  
But I wont unlock the door

You can sleep in bus shelters  
You can sleep in the park  
But Ill rip up the trees  
Until you tear yourself apart

But I dont love you  
No I dont love you  
Do you dream?

Back to surveillance  
Open eyes and wash out tear  
A sign that says no exit  
And no-one can save you here

I could talk about my programme  
Where everything is white  
I could specialise in pictures  
Where nothings ever right

But I dont love you  
No I dont love you  
Do you dream?

We are just sound  
We are just noise  
And we are all here to lie  
Do you dream?

You sleep by windows  
You sleep by windows

Do you cry?  
Do you dream?  
Do you?  
Did you?
