

# Steel & You

Gary Numan

Its so quiet and dark  
And I shouldnt be here  
This machine wont last  
For always

Just my steel friend and me  
I stand brave by his side  
This machine is all  
I live for

I can see in your eyes  
Youre not so sure about me  
This machine is my voice  
Please listen

Its so noisy and bright  
And I just love being here  
This machine will last  
For my life
